

computers & industrial engineering

An International Journal

**Volume Contents and Author Index
Volume 42, 2002**

PERGAMON

LIST OF CONTENTS

VOLUME 42

NUMBER 1

- | | | |
|--|------------|--|
| S. Deo, R. Javadpour and G. M. Knapp | 1 | Multiple setup PCB assembly planning using genetic algorithms |
| Y. Zhao, K. Ridgway and A. M. A. Al-Ahmari | 17 | Integration of CAD and a cutting tool selection system |
| M. Omar and D. K. Smith | 35 | An optimal batch size for a production system under linearly increasing time-varying demand process |
| I.-C. Choi and D.-S. Choi | 43 | A local search algorithm for jobshop scheduling problems with alternative operations and sequence-dependent setups |
| A. M. Malyscheff, T. B. Trafalis and S. Raman | 59 | From support vector machine learning to the determination of the minimum enclosing zone |
| M.-S. Han and D.-J. Park | 75 | Optimal buffer allocation of serial production lines with quality inspection machines |
| M. Zhou and C. Zhao | 91 | An optimization model and multiple matching heuristics for quality planning in manufacturing systems |
| T.-C. Kuo, S. H. Huang and H.-C. Zhang | 103 | Erratum to "Design for manufacture and design for 'X': concepts, applications, and perspectives" |

NUMBERS 2-4

- | | | |
|------------------------------------|------------|---|
| M. I. Dessouky | 105 | The 26th International Conference on Computers & Industrial Engineering |
| H. Fallah and E. Shayan | 107 | Theoretical and experimental analysis of operation lead times based on the IMPOS approach |
| K.-S. Park and C.-H. Jun | 115 | Semiconductor yield models using contagious distributions and their limiting forms |
| L. R. Khan and R. A. Sarker | 127 | An optimal batch size for a JIT manufacturing system |
| M. Asano and H. Ohta | 137 | A heuristic for job shop scheduling to minimize total weighted tardiness |
| B. P.-C. Yen | 149 | Communication infrastructure in distributed scheduling |
| G. Li and F. Ye | 163 | Scheduling flow shops in the environment of multi-functional machine tools |

- Y. Lejtman, E. Shayan and R. Nagarajah**
M. Yokoyama
- R. Sarker and C. Newton**
W. Xu, Y. Wei and Y. Fan
C. H. Paik, H. G. Kim and H. S. Cho
- S. Kayaligil and S. Ozlu**
M. A. Sobhanallahi, G. R. Jahanshahloo, G. R. Amin and E. Shayan
Y. H. Lee and M. H. Lee
H. Hwang, S. Moon and M. Gen
- X. M. Ding, J. Y. H. Fuh and K. S. Lee S. Butdee**
H. S. Ku, E. Siores, A. Taube and J. A. R. Ball
S. H. Masood, V. K. Bagam and P. Chantanabubpha
Y. Ting, W. I. Lei and H. C. Jar E. Shayan and L. Al-Hakim
- H. Ohta and M. Nakamura**
A. M. Mukattash, M. B. Adil and K. K. Tahboub
E. Thuraijasingam, E. Shayan and S. Masood
E. P. Chew, C. J. Ong and K. H. Lim H.-S. Hwang
- S. L. Ho, M. Xie and T. N. Goh**
- F. Guerrero, S. Lozano, K. A. Smith, D. Canca and T. Kwok**
Y. Wei, W. Xu, Y. Fan and H.-T. Tasi
R. J. Kuo, L. M. Ho and C. M. Hu
- 169** Design of a suitable production management system for a manufacturing company
175 Integrated optimization of inventory-distribution systems by random local search and a genetic algorithm
189 A genetic algorithm for solving economic lot size scheduling problem
199 Virtual enterprise and its intelligence management
207 Performance analysis for closed-loop production systems with unreliable machines and random processing times
221 Loading of pallets on identical CNC machines with cyclic schedules
231 Threshold value for the number of cells in group technology
237 A shape-based block layout approach to facility layout problems using hybrid genetic algorithm
249 An integrated model for the design of end-of-aisle order picking system and the determination of unit load sizes of AGVs
259 Computer aided EDM electrode design
271 Hybrid feature modeling for sport shoe sole design
281 Productivity improvement through the use of industrial microwave technologies
291 A computerised minimum distance algorithm for machining of sculptured surfaces
299 A path planning algorithm for industrial robots
309 Beam search for sequencing point operations in flat plate manufacturing
317 Cell formation with reduction in setup times
329 Heuristic approaches for part assignment in cell formation
343 Modelling of a continuous food pressing process by dimensional analysis
353 Variable period adaptive genetic algorithm
361 An improved model for vehicle routing problem with time constraint based on genetic algorithm
371 A comparative study of neural network and Box-Jenkins ARIMA modeling in time series prediction
377 Manufacturing cell formation using a new self-organizing neural network
383 Artificial neural network based predictive method for flood disaster
391 Cluster analysis in industrial market segmentation through artificial neural network

- Y. Ting, F. M. Shan, W. B. Lu and C. H. Chen**
D. S. Chang and S.-T. Jiang
- G. Q. Huang and K. L. Mak**
- G. Abdul-Nour, M. Demers and R. Vaillancourt**
- L.-C. Tang, A.-P. Tan and S.-H. Ong**
- S. Nakanishi and H. Nakayasu**
- L. Luong, J. He, K. Abhary and L. Qiu**
- B. P.-C. Yen**
- S.-U. Guan and Y. Yang**
T. W. Kim, C. S. Ko and B. N. Kim
- K. Yeo and C.-H. Jun**
- K. Kurihara and N. Nishiuchi**
- M. Kia, E. Shayan and F. Ghotb**
- R. A. Sarker and M. A. Quaddus**
- H. Jahan-Shahi, E. Shayan and S. Masood**
- P. Humphreys, R. McIvor and G. Huang**
- N. Moussa, S. E. Moussa and M. S. Eid**
- 401** Implementation and evaluation of failsafe computer-controlled systems
- 417** Assessing quality performance based on the on-line sensor measurements using neural networks
- 425** Synchronous quality function deployment (QFD) over world wide web
- 433** Probabilistic safety assessment and reliability based maintenance policies: application to the emergency diesel generators of a nuclear power plant
- 439** Planning accelerated life tests with three constant stress levels
- 447** Reliability design of structural system with cost effectiveness during life cycle
- 457** A decision support system for cellular manufacturing system design
- 471** Electronic commerce front-end in apparel supply chain
- 481** SAFE: secure agent roaming for e-commerce
- 495** An agent-based framework for global purchasing and manufacturing in a shoe industry
- 507** Teletraffic analysis of cellular communication systems with general mobility based on hyper-Erlang characterization
- 521** Efficient Monte Carlo simulation method of GERT-type network for project management
- 533** Investigation of port capacity under a new approach by computer simulation
- 541** Modelling a nationwide crop planning problem using a multiple criteria decision making tool
- 555** Cost/time estimation in flat plate processing using fuzzy modeling
- 567** An expert system for evaluating the make or buy decision
- 587** The Synchronizer, a model for feasibility analysis and financial planning
